

## **Sports Premium 2021-22**

### **Vision**

Canon Barnett is committed to striving for excellence in all that we do at the school. Our vision is that pupils become creative and ambitious learners who strive to do their best at all times because they are motivated and guided by outstanding teams within the school. They will be able to contribute to their local community and understand how their actions impact on a wider, global world. They will be caring citizens who know how to keep themselves safe and who realise that they have a role to play in looking after others. As we continue to develop our teaching and our curriculum, we are aiming for outstanding in all that we do.

### **What is the Sports Premium?**

Following the London 2012 Olympic and Paralympic games the government provided funding for schools to secure a significant and lasting legacy for the children. The aim is to develop an enjoyment of sport and physical activity and promote a healthy lifestyle from an early age. Purpose of the funding All schools have to spend the sports funding on improving PE and the sports provision.

Our aim is to improve the quality of PE lessons as well as providing more sports for the children to try in school and during after school clubs. We want to give children the opportunity for children to play sports they would not usually access.

Aims for the Sports Premium:

- For all children to enjoy and benefit from high quality PE opportunities
- To encourage children to experience sports they are not familiar with
- To give children a chance to be active in after school activities
- Children to have access to competitive sports and be involved in intra competitions
- For staff to access training opportunities and continue professional development
- To develop the confidence and subject knowledge of staff so they can confidently coach children

### **How the funding was used in 2020-21**

In the 2020-21 financial year, the school received £17,720. Our main concern and focus after lockdown was on improving children's fitness as many had not been physically active during this time. A coach was hired to encourage active play and sports in the playground at lunch time for all children from Monday to Friday. The coach supported children in their classes to play team games such as football and dodgeball as well as individual fitness skills like skipping. This was a great success and a way to get children physically active during their lunchtime as well as developing their team skills and fitness levels. In the summer term we continued with the provision twice a week.

A professional coach supported PE lessons in all year groups across the school with a focus on upskilling teachers in athletics and gymnastics. The time with the coach supported teacher development in their own teaching of PE as well as enhancing the provision of PE lessons in the school. In the autumn term, we offered after school sporting clubs football to all KS2 pupils to encourage all children to become more active outside the school day.

Planned Provision 2021-22

Projected grant: £17,720

	Objectives	Legacy and expected outcomes	Cost
Sports coaches	<p>Uplevel current PE provision</p> <p>Support teacher development</p> <p>Improve physical development of children</p>	<p>Teachers upskilled through observation of lesson</p>	<p>2x half day/week £125</p> <p>£3750</p>
