

# **BE SMART ON THE INTERNET!**

Don't share your personal info!

Don't share your personal information online or in real life because people can act to be you and use your money on ps5, rent, pc ect. So you can be in debt plus they could write insulting stuff on your SOCIAL MEDIA account and you can get in trouble by the person.

Don't fall for scams!

If a website gives you an offer that is too good don't accept it because most likely it is a scam! e.g. Do you want free rent? Well put your bank

info here! DON'T ACCEPT IT IS TOO GOOD TO BE TRUE!!

### Use secure websites

Make sure you use a website that starts with "https://" with a green padlock because it is secure and your private information will not be stolen.

Now you know some information about internet safety you can be safe online if you want to learn more information then go to a SECURE internet safety website and learn more information!!!
